INCUBATION CENTERS AT VGU

VGU Jaipur is dedicated to supporting innovative ideas, technology dissemination, and startup development. We provide guidance, knowledge, training, and funding support to help students turn their innovative ideas, products, or services into small-scale businesses or startups. Many startups created by our students have become huge successes, and are now in the process of becoming unicorns. We are here to help you turn your dreams into reality!

Supported by Atal Innovation Mission (AIM), Niti Aayog, ACIC-VGU Foundation, envisages building and nurturing the community in the state of Rajasthan, including its Tier-2 and Tier-3 cities for the startup and innovation ecosystem for the sector of art, design, handicrafts, lifestyle, fashion, and agriculture. The ACIC-VGU Foundation aims to reach the innovators at the bottom of the pyramid and give them equitable opportunities, especially by reducing the lab-to-land distance and creating a space for the pre-incubation of ideas and solutions. With state-of-art labs, equipment, mentorship, handholding support, funding opportunities, and co-working space, ACIC-VGU Foundation is here to create the upcoming Unicorns from Rajasthan.

SOCIALS AT VGU

VGU believes in nurturing students to become real-world ready, training them with professional education and arming them with knowledge about their duties toward society to create model citizens.

VGU is empanelled for Unnat Bharat Abhiyan and Sansad Adarsh Gram Yojana and currently has adopted ten nearby villages, including Murlipura, Khijooriya Brahmana, Khijooriya Jatan and Barala. The team conducts regular health check-ups, counselling and awareness sessions for the villagers.

VGU has an NGO, Vivekananda Social Service Society (Registered under the Societies act.), formed by students and faculties to serve the underprivileged, promote social welfare and protect the environment. Regular donation drives and social upliftment sessions are conducted for the children of the nearby schools. We also have a Swaruchi Kendra for underprivileged kids living around the campus, where student volunteers conduct regular Art and craft, public speaking, yoga and dance activities for them evening.

Around 600 students have enrolled in NCC, NSS and Scout wings at VGU to take up societal development activities throughout the year, including the Swachhta Pakhwada campaign, Beti Bachhao Abhiyaan and Sarv Shiksha Abhiyan, AIDS awareness, etc. They have been instrumental in planting more than 30,000+ saplings throughout the city in the last eight years. Students and faculties are motivated to be part of blood donation camps and support grassroots NGOs, artisans, and craft cluster development programs by engaging with KVIC, EPCH, the Development Commissioner of Handicrafts and ministries.

VIVEKANANDA BUILDING SCIENCE CENTRE

ROYAL ENFIELD LAB

The training centre of Royal Enfield is on the VGU campus, intending to train manpower in relevant areas of Automobile, Mechanical and Electrical Engineering applications, which will add value to students and provide them with industry exposure. It provides job-oriented training and education programs to equip its students, faculty members, industry personnel and other learners with adequate and updated technological know-how in the area of automobile engineering to meet the growing demand for skilled manpower in the Indian automobile sector

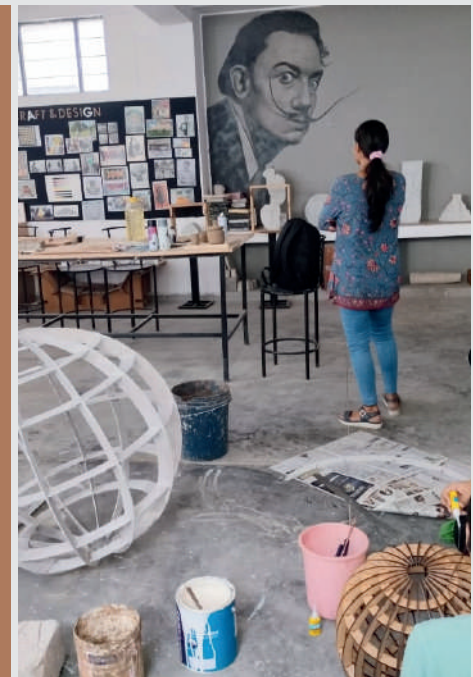

VGU has Vivekananda Building Science Centre Research that provides hands-on experience, training, and skills to civil engineers and architects on buildings. It also provides students and faculty members with government projects on green buildings and energy-efficient buildings to gain industry-specific skills and experience. The VBSC collaborated with the Associated Chambers of Commerce and Industry of India (ASSOCHAM), a leading Indian trade association, D2 consultancy services, and others.

Mitsubishi robotics in VGU is 1st of its kind in North India. It is set up in association with Mitsubishi & Vertex group, and it has two industrial robots of 6-axis and 4-axis with the aim of equipping VGU students with the necessary skills and training to thrive in the “Arena of Machine Systems with Controlled Automation of Mechatronics”. It helps engineering students stay updated about the latest scientific tools and technologies in the “Production Engineering Methodology.”

Committed to excellence in education through rigorous teaching and learning practices with a student-centric approach, we aim to provide students with the necessary hands-on experience by teaching them everything about different types of materials. VGU also help students to conduct research on different materials and utilise their learnings in creating a mark for themselves in their respective fields.

These projects provide students with the chance to apply their academic knowledge in a practical setting, honing their skills and gaining valuable experience that will enhance their employability.

1. **Industry-Academia Collaborative Research:** One of the most effective ways to connect academia and industry is by collaborating on research projects. Such collaborations can help industries in developing new products and technologies, and universities can gain access to industry-specific data and resources to conduct research.
2. **Internships and Apprenticeships:** Another way to provide requisite exposure and experience of the profession/ industry to the students is by offering internships and apprenticeships to students. This provides students with hands-on experience and helps them develop industry-specific skills that can make them more employable.
3. **Industry-Faculty Exchange Programs:** Industry-faculty exchange programs can help faculties to stay up-to-date with the latest trends and developments in the industry. This can enhance their expertise in the sector-specific specializations and help them provide better guidance to the students.
4. **Continuing Education Programs:** Academia and industry can collaborate on continuing education programs to provide training and capacity building programs. Such programs can help the workforce to upgrade their skills and knowledge, thereby contributing towards societal evolution.

The Department of Journalism and Mass Communication was established in 2020. The Mass Communication program strives to respond to the country's aspirations as a vibrant global media hub by providing an up-to-date curriculum that reflects the pace of advances in the field of mass media and is in sync with the changing needs of the industry. The program creates a student-centred bilingual learning environment that merges practical with theoretical knowledge. The students develop their critical thinking abilities and acquire professional competencies by engaging in a hands-on, technologically and practically attuned learning environment which addresses the needs of the mass media industries in society. The department educates and trains students in print, electronic, photography and online journalism. The department also focuses on the personality and skill development of students. The faculty and students engage in research, professional development, and creative and service activities to benefit multicultural societies. The Department of Mass Communication is poised to become a vibrant mass communication and journalism education centre through curricular, extra-curricular, and internship activities.

TRUST**

THE GROUNDBREAKERS OF EDUCATION SYSTEM

'Bagaria Education Trust' (BET), a not-for-profit organization registered in the year 2002, was constituted by a group of hardworking professionals from Rajasthan who felt the need of special efforts for promoting education in the rural areas. The trust is registered with Niti Aayog & Devasthan Vibhag, Rajasthan & is also registered with Income tax department under section 80G & 12AA. The primary focus of the trust has always been on educating rural women & youth. The introductory endeavor of the promoters was an exclusive drive called "Shiksha Karmi" for the education of the daughter-in-laws of the villages. The motive behind this drive was to make the women educated enough so that they can impart education to the village children in the future. The trust & its sister concern run 9 educational institution ranging from nursery education till Ph.D. programmes in multidisciplinary fields. The current strength of these institutions stands out to be a whopping 10,000+ students & over 1000+ staff members.

BET is deeply involved in making social impact & changing lives of the people. Some of the projects undertaken by BET apart from regular education includes:

SKILL TRAINING | SCHOLARSHIP SCHEME | GRAMOTHAN (VILLAGE DEVELOPMENT) | RURAL TECHNOLOGY BUSINESS INCUBATION | BLOOD DONATION CAMPS | TREE PLANTATION | WATER & SOIL CONSERVATION | ENTREPRENEURSHIP EDUCATION | HEALTH CAMP | ENERGY EFFICIENCY

BET has its campuses & institutional infrastructure in the district of Jaipur, Bikaner & Nagaur. The trust with its 500 odd staff members & 2000+ student volunteers can implement large scale Projects & is committed to create a huge impact in lives of the people.
